PHOTO READY

"If you look at skin before and after you've used L'Oréal's Skin Perfection Day Cream [below left], it's amazing, like it's been airbrushed."

GO NUTS

"My mum gave me this great tip: put coconut oil [see above] on the ends of your hair before you shower.

It acts as a barrier, so the shampoo takes oil out of the roots only, and the ends stay soft and moisturised."

Skin Perfection Day Cream,
£14.99, L'Oréal Paris
(available nationwide)

LIP SERVICE

"L'Oréal's Color Riche L'Extra Ordinaire Liquid Lipstick [below] is somewhere between a lipstick and a lip gloss. The pigment is amazing and the fuchsia colour is my favourite shade."

SPRAY AWAY

"When I'm out of town and away from a loved one, I spray Gucci's Première EDP [below left] on my pillow and on my sweater to remind me of home. It's like a little love potion."

IN THE NUDE

"I usually find nude nail polishes are too sheer, but L'Oréal's Color Riche Le Blanc [far right] has a white base, which makes it funkier, younger and more flattering."

BURNING LOVE

"Scented candles are big in my household. I don't want to burn them because they're so pretty. This Le Labo candle [right] is unique as it smells both feminine and masculine."
