Katy's MUST-HAVES

SLEEP RIGHT

"Sleep is really important to me, so Jawbone's UP wristband is amazing. You just click it before you go to bed, and the next morning it will show your sleep pattern – how many hours you slept and whether your sleep was deep or light."

KNOCK 'EM DEAD

"I worked on Killer Queen's Royal Revolution fragrance for a year, trying lots of different samples along the way. I love the finished product – the blackthorn note adds a mysterious side, and the bottle feels like you're holding a precious jewel in your hands."

OIL YOURSELF

"I thought for a long time that putting oil on your skin was an absolute no-no, but then I discovered Shu Uemura's cleansing oil. After a show, there's a lot of sweat, and there's make-up running everywhere, and this takes off every trace."

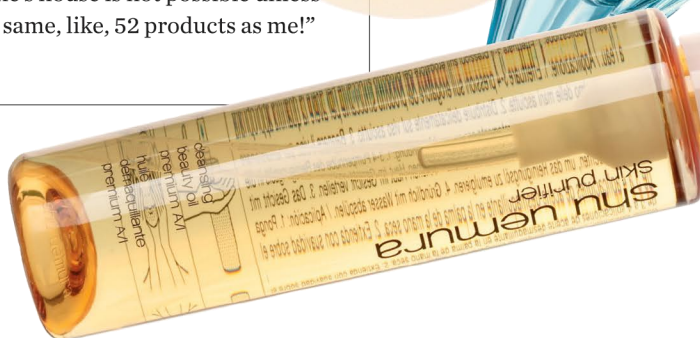

SPRAY FAN

"I keep a small can of Oribe's Dry Texturizing Spray with me when I'm touring to give my hair lift and texture."

PLAY TIME

"Me and my dancers love playing around with make-up and nails. Going over to casually stay at someone's house is not possible unless they have the same, like, 52 products as me!"
