

SKIN Saviour

This powerful, does-it-all serum is perfect to prep your face for winter – that’s why it’s a bestseller

You may love a breezy autumn walk followed by a cosy evening in front of the fire, but your skin does not. Cold, harsh conditions can wreak havoc on your complexion, causing dry, flaky patches, increasing sensitivity and exacerbating fine lines and wrinkles. Don’t despair, fight back with Clarins Double Serum. Using a potent cocktail of 20 powerful plant extracts, including kiwi, arnica and rosehip oil, it hydrates and soothes dry areas, restores radiance and strengthens the skin’s barrier mechanism.
